CMS History Button

Did you know that there is a **History** button at the top of the CMS that lists links to all the pages you have recently edited? To access this list click the icon highlighted below.

Once you do this, the history of your recent edits will appear in a dropdown:

You can now click the page you want to visit and the CMS will move to that page.

That is our tip for this month. Please let me know if you have any questions about this tip or about the CMS in general.
