

UNIVERSITY OF KANSAS CANCER CENTER SEMINAR SERIES

WAHL HALL WEST AUDITORIUM - 12:00 PM

SPRING/SUMMER 2015 SCHEDULE

To request a meeting with our speakers, contact Darcy Groce (dgroce@kumc.edu) or Valerie Freeman (vfreeman2@kumc.edu)

January 6, 2015

Mary Markiewicz, PhD

University of Kansas Medical Center
Novel mouse models give new insight into the role of NKG2D and its ligands in immunity

January 13, 2015

Wen Liu, PhD

University of Kansas Medical Center
Pilot data using a mind-body intervention on quality of life in cancer survivors

January 20, 2015

Zigang Dong, MD

University of Minnesota
Can we win the war against cancer by prevention?

January 27, 2015

Xiushi Sun, PhD

Kansas State University
High performance 3D peptide hydrogel matrix and applications

February 3, 2015

Stefan Bossman, PhD

Kansas State University
Protease Signatures in Cancer Diagnostics

February 10, 2015

Animesh Dhar, PhD

University of Kansas Medical Center
Lysine Histone Demethylase 3A (KDM3A): Novel Epigenetic Target for Pancreatic Cancer Progression and Metastasis

February 17, 2015

Omar Aljlitawi, MD

University of Kansas Medical Center
EPO Modulation Using Hyperbaric Oxygen to Improve Engraftment Post-Hematopoietic Stem Cell Transplantation

February 24, 2015

Tomoo Iwakuma, MD, PhD

University of Kansas Medical Center
Metabolic regulation of mutant p53 stability

March 3, 2015

Peter Nelson, MD

Fred Hutchinson Cancer Research Center
The Prostate Cancer Genome: Lessons for Precision Oncology

March 10, 2015

Thomas Yankee, PharmD, PhD

University of Kansas Medical Center
The Ikaros family of transcription factors in T cell development and leukemogenesis

March 17, 2015

Arghya Paul, PhD

University of Kansas - Lawrence
Micro and Nano-scale Biomedical Technologies for Cell Therapy and Tissue Engineering

March 24, 2015

Scott Weir, PharmD, PhD & Shrikant Anant, PhD

University of Kansas Medical Center
CPX-POM - A Novel, Promising Treatment for Non-Muscle Invasive Bladder Cancer

March 31, 2015

Austin Rogers, MPH

Kansas Department of Health and Environment
Cancer Surveillance in Kansas & Opportunities for Academic/Public Health Practice Collaboration

April 7, 2015

Craig Cameron, PhD

Penn State University
Misregulated mitochondrial transcription and disease

April 14, 2015

Wen-Xing Ding, PhD

University of Kansas Medical Center
Autophagy and Nrf-2: two double-edged swords in Cancer

April 28, 2015

John Karanicolas, PhD

University of Kansas - Lawrence
New computational approaches for addressing non-traditional drug targets

May 5, 2015

Udayan Apte, PhD

University of Kansas Medical Center
Role of Hepatocyte Nuclear Factor 4 alpha in Hepatocellular Carcinoma

May 12, 2015

Raelene Wouda, BVSc, DACVIM, MANZCVS, BA

Kansas State University
Companion animal models of carcinogenesis; facilitating the parallel development of diagnostic and therapeutic tools for the benefit of both human and veterinary cancer patients

May 19, 2015

Nikki Cheng, PhD

University of Kansas Medical Center
Molecular Switching of DCIS to Invasive Breast Carcinomas through CCL2/CCR2 chemokine signaling mechanisms

May 26, 2015

Francisco Diaz, PhD

University of Kansas Medical Center
TBA

June 2, 2015

David Davido, PhD

University of Kansas - Lawrence
Regulation of the HSV-1 Life Cycle: Role of Viral and Host Factors

June 9, 2015

Ashim Mitra, PhD

University of Missouri Kansas City
TBA

June 23, 2015

Barry Skikne, MD

Celgene Pharmaceuticals
Performing Clinical Studies in Hematology/Oncology. A Pharmaceutical Perspective
