

Recruiting Families of Children with Autism for an Early Intervention Study

- Do you have a child with an autism spectrum disorder between the ages of 12 months and 6 years?
- Do you have a computer?
- Are you interested in early intervention services?

We need you!

We are recruiting children with autism spectrum disorders between the ages of 12 months and 6 years and their caregivers for a research study about receiving occupational therapy intervention over your computer (telehealth).

Participation involves:

- Meeting with an occupational therapist over the computer for 12 sessions over 3-4 months.
- Completing questionnaires about your child's development
- A \$100 reimbursement for your time

For more information, please contact Jennifer Tanquary at jtanquary@kumc.edu or 913-588-7198.
