

Health insurance deductions on paycheck

Payroll is working with KU-Lawrence to update the *HR/Payroll System* for enhanced functionality. Employees who have KU Medical Center group health and dental insurance will see changes in those deduction fields starting with the June 1 paycheck.

If you received the Health Quest Discount, previously the deductions displayed with the insurance plan you selected, followed by "Discount." For example, you would see "BCBS – Plan C BT – Discount." Until the medical center and Lawrence systems can sync up, which will occur this fall, health insurance deductions will show as "No Discount" although the deduction amount will be the same.

You will also notice an extra Dental Before Tax and medical insurance deduction line showing 0.00, which can be disregarded. The changes to how the deductions are displayed will be phased out by the fall and will go back to normal.
