PROGRAM DESCRIPTION:
This program is designed to certify people for Hearing Screening Level 2. Day one includes an overview of the Hearing Screening Law and pertinent information in order to allow the participant with the skills to complete hearing screenings, visual inspections and tympanometry and will be able to explain the results. Day two includes a clinical practicum. Participants completing the program will be able to perform Otoscopic inspection, pure tone air conduction sweep screening and threshold screening, Infant-Toddler paper screenings and tympanometry screenings. Those who complete this program will meet the requirements of Level 2 Certification of the KSA 72-1204 through 1207.

OBJECTIVES:
At the conclusion of the course, participants should be able to:
1. Complete Level 1 training successfully.
2. Explain the purpose and rationale for including tympanometry in the screening protocol.
3. Determine measurement parameters used in tympanometry and give a normal range for each.
4. Demonstrate knowledge of symptoms related to various stages of otitis media and possible consequences of otitis media on development and educational progress.
5. List other middle ear disorders and current trends in medical care.
6. Demonstrate skill in performing tympanometry and recognizing valid results.
7. Demonstrate application of pass/refer criteria when interpreting tympanograms.
8. Explain need for early identification and identify and explain indicators that put an infant-toddler at risk for hearing loss.
