The Department of Neurology presents

3rd Annual Lillian Pardo, M.D. Pediatric Neurology Lecture

"Paroxysmal Movement Disorders in Children"

Educational Objectives

1. Recognize the phenomenology of the three primary types of paroxysmal dyskinesias in children

2. Use knowledge gained from this lecture to inform specific questions for the clinical and family history when seeing patients with episodic movement disorders

3. Personal experience receiving phone calls from neurologists and pediatricians asking for guidance on these disorders.
