Mosaic Project

This unique residential training course provides an experiential learning opportunity that will equip you with awareness of diversity in the context of power, privilege and oppression, increasing your capacity to provide culturally competent care. It will help you identify your own assumptions, values and bias about human behavior and practice using tools for effective cross-cultural communication.

Putting Diversity Under the Microscope

March 11th - 13th
Heartland Center
Open to all
KUMC students

Join us for a weekend retreat to examine diversity and cultural competency in healthcare.

Registration will be open February 11th - 24th at www2.kumc.edu/oced/diversityprograms.htm

A special project of KU Medical Center’s Office of Cultural Enhancement and Diversity (OCED) in collaboration with KU Medical Center’s Office of Student Engagement and Students Educating and Advocating for Diversity (SEAD).
