

Healthy Hawks 7th Annual Bike Drive

June 14, 2014

Thanks to a great partnership with the KU Edwards Campus and the KU Alumni Association, we collected/repaired over 90 bikes!

Big Jay came to help us give out the bikes to the children!

The Johnson County Fire Department came and put up their giant ladder and allowed the children to get in their vehicle and learn about fire safety.

MedAct came to run a bike safety course so all of the children could learn about and practice bicycle safety and rules of the road.

Hospital Heroes and the Concussion and Trauma teams from KUMC came to fit the free helmets that were given to every parent and child who needed one.

By the end of the morning, 87 bikes and helmets were given out to Healthy Hawks families. Thanks to all of you who made this possible!
