

Healthy Hawks 10th Annual Bike Drive!

May 20th, 2017

We once again partnered with the KU Alumni Association to have two bike collection days earlier in the spring and collected lots of great bikes! We had one bike collection day at Johnny's in Prairie Village and one at the KU Edwards Campus – so a big THANK YOU to both of those organizations for their support!

Our friends Howard and Hunter Willyard repaired all of our bikes so they were safe and ready to give out. THANK YOU Howard and Hunter!!

The KU Alumni Association purchased brand new helmets that we could give out to all of the children and families so they could ride safely this summer. The helmets had Jayhawks on them – so cute!

The Kansas City Chiefs sent KC Wolf to hang out with the kids – super cool!

We held the bike giveaway in partnership with New Bethel Church in KCK, where there was a street fair with other health services, social services, a 5K and other fun activities for the children and families to enjoy – a great turnout!

Thank you to our wonderful partners for making this another great bike drive!!!!
