

Healthy Hawks 9th Annual Bike Drive!

June 4, 2016

We partnered with the KU Alumni Association to have two bike collection days earlier in the spring and collected over 60 bikes! They also arranged for a radio station to broadcast live from the event, for the fire truck to come, and for Baby Jay to make an appearance – thank you KU Alumni Association! Thanks also to Howard and his son Hunter, who got most of the bikes repaired and ready to give out!

The weather was beautiful on the 6th and we had families arrive early ready to select their bikes.

The KU Hospital Heroes arrived to distribute and fit FREE bike helmets to everyone in attendance.

Med Act set up a bicycle safety course to teach everyone about how to be safe on their new bikes for the summer.

Thank you to our wonderful partners for making this another great bike drive!!!!
