

## Internship Program Admissions

Date Program Tables are updated: September 1

**Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program's policies on intern selection and practicum and academic preparation requirements:**

Qualifications include enrollment in a Ph.D. or Psy.D. program in clinical or counseling psychology approved by the American Psychological Association. Interns should have completed all coursework and practicums, and passed their comprehensive examinations according to the requirements of their graduate program. For either track (Comprehensive Track or Underserved Populations Track) preference is given to those candidates whose practicums and coursework have prepared them most closely for work in an academic medical center setting (e.g. evaluation and treatment experiences in medical/interdisciplinary settings). For interns on the Underserved Populations Track only, in addition, preference is given to candidates who foresee future goals as working in an underserved setting. We are especially interested candidates for this track who are interested in rural settings.

**Does the program require that applicants have received a minimum number of hours of the following at time of application? If Yes, indicate how many:**

Total Direct Contact Intervention Hours	No		Amount:
Total Direct Contact Assessment Hours	No		Amount:

**Describe any other required minimum criteria used to screen applicants:**

Applicant must be a U.S. Citizen or Permanent Resident for the Underserved Populations Track (due to Federal funding requirements for this track). These restrictions do not apply for the Comprehensive Track.

### Financial and Other Benefit Support for Upcoming Training Year\*
