

The University of Kansas Medical Center

KU Medical Center serves Kansas through excellence in education, research, patient care, and community engagement.

Education

KU Medical Center educates health care professionals through a full range of undergraduate, graduate, professional, postdoctoral, and continuing education programs. We operate three schools:

- KU School of Medicine: campuses in Kansas City, Wichita and Salina
- KU School of Nursing
- KU School of Health Professions

Research

KU Medical Center advances the health sciences through world-class research programs. It is one of 62 institutions in the national Clinical and Translational Science Award consortium, where researchers are working to speed basic-science discoveries into cures. It is also home to:

- The University of Kansas Cancer Center, one of only 68 National Cancer Institute-designated cancer centers in the country
- The KU Alzheimer's Disease Center, one of only 29 National Institutes of Health-designated Alzheimer's Disease Centers.

Patient Care

KU Medical Center provides state-of-the-art patient care in an academic medical center environment. Our clinical partners include:

- The University of Kansas Hospital, Kansas City, Kan.
- Silver City Health Center in Kansas City, Kan.
- U.S. Department of Veterans Affairs medical centers in Kansas City, Mo., Wichita, Kan., and Topeka, Kan.
- Via Christi Health and Wesley Medical Center in Wichita, Kan.
- Salina Regional Health Center in Salina, Kan.
- The KU Center for Telemedicine & Telehealth, with more than 100 sites across Kansas.

Community Engagement

KU Medical Center works with communities throughout Kansas to:

- Educate students in the health professions from kindergarten through college.
- Strengthen the health care workforce through continuing education, health professional recruitment for rural communities, and temporary physician practice coverage.
- Collaborate on research to address health issues that cost Kansas thousands of lives and millions of dollars each year.
- Increase access to health care for rural and vulnerable populations through clinical services and health fairs across the state.

3,349

Students enrolled in Fall 2013

School of Medicine: 2,060

- MD program: 800
- Residents: 813
- Graduate programs: 288
- Other programs: 127

School of Nursing: 662

- Undergraduate programs: 281
- Graduate programs: 371
- Other programs: 10

School of Health Professions: 591

- Undergraduate programs: 155
- Graduate programs: 420
- Other programs: 16

Interdisciplinary and other programs: 36

\$116M
