

PROJECT ECHO

Extension for Community Healthcare Outcomes

Calling all:

Primary Health Care; Behavioral Health Care; Mental Health Care; and Education Professionals - interested in learning new ways to help support children at risk for trauma or maltreatment.

You're invited to our Kansas CARES ECHO

Introducing evidence-based behavioral prevention & intervention programs to improve interactions between adults and children

- ✓ Prevent and reduce trauma
- ✓ Encourage healthy relationships
- ✓ Prevent and reduce challenging behaviors

We will also introduce opportunities for additional behavioral training at no cost to you! *

Join us:

**Friday, June 7
1:00 till 2:00 PM**

***In-person follow-up training available in Hays and Garden City!**

Empowering Primary Care

Extension for Community Healthcare Outcomes

Moving Knowledge, Not Patients

ECHO uses video-conferencing technology to offer mentoring. Connect from your computer, with a webcam and microphone, a tablet or smart phone to gain access to case-based learning and interdisciplinary teams.

Tele-ECHO Model

- Collaborative education
- Democratize and de-monopolize knowledge linking inter-disciplinary specialty team with multiple primary care clinicians
- Experts mentor and share their expertise across a virtual network

ECHO Partners

- Acquire new skills and competencies
- Become part of a community of practice and learning
- Gain access to inter-professional team of specialty providers and colleagues to offer support in how to manage patients with complex conditions
- Increase their professional satisfaction

Tele-ECHO Clinic

- Helps provide better access for patients in rural and underserved communities
- Reduces treatment disparities
- Provides rapid dissemination of new knowledge
- Promotes consistency in care and practice
- Spreads knowledge, expands capacity and accelerates collective wisdom

Kansas CARES ECHO

- ✓ Child Adult Relationship Enhancement (CARE)
- ✓ Parent Child Interaction Therapy
- ✓ Identify prevention and intervention programs for young children with disruptive behaviors or history of maltreatment
- ✓ Discuss the relationship between prevention and intervention programs while reviewing a case study

CME/CNE/CE: Application has been made for continuing education credit for Physicians, Advanced Practice Providers, Nurses, and Social Workers. Other participants may request a certificate of attendance.
