

# PROJECT ECHO

Extension for Community Healthcare Outcomes

## How to treat PAIN in 2018

You've read the statistics – pain is a major contributor to health care costs.

You know the scope – pain affects more Americans than diabetes, heart disease and cancer combined.

Your patients are asking you for help with treating their chronic pain – however, treatment guidelines continue to change.

How can busy clinicians stay current with recommendations?

### You're invited to our Pain Management 2018 ECHO

- ✓ Register for our collaborative web-based educational community – enter “KUMC Project ECHO” into your web browser
- ✓ Interact and learn with our Interdisciplinary Team
- ✓ Bring a difficult de-identified case for tele-curbsiding
- ✓ Learn the latest evidenced based medical knowledge

Join us:

Friday 12:00 till 1:00 PM  
August 3, 10, 17 and 24, 2018

**Calling all:** Primary Care Clinicians and their team, Emergency Medicine clinicians, Behavioral Health Specialists, Social and Community Health Workers, and Public Health Professional – join our virtual community of practice.

To Register:

Enter “KUMC Project ECHO” into your web browser  
Select Pain Management 2018 under “Current ECHO Series”

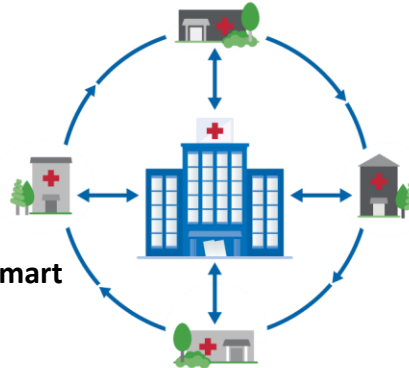

# Empowering Primary Care

Extension for Community Healthcare Outcomes

## Moving Knowledge, Not Patients

ECHO uses video-conferencing technology to offer mentoring. Connect from your computer, with a webcam and microphone, a tablet or smart phone to gain access to case-based learning and interdisciplinary teams.

## Tele-ECHO Model

- Collaborative medical education
- Democratize and de-monopolize medical knowledge linking interdisciplinary specialty team with multiple primary care clinicians
- Experts mentor and share their expertise across a virtual network

## Pain Management ECHO Curriculum Includes:

- Overview of Pain
- Assessment of Pain
- Non-opioid treatment strategies
- Physical and psychological interventions
- Pharmacologic and Interventional Treatment
- Overview of Opioid Use Disorder

### ECHO Partners

- Acquire new skills and competencies
- Become part of a community of practice and learning
- Gain access to inter-professional team of specialty providers and colleagues to offer support in how to manage patients with complex conditions
- Increase their professional satisfaction

### Tele-ECHO Clinic

- Helps provide better access for patients in rural and underserved communities
- Reduces treatment disparities
- Provides rapid dissemination of new knowledge
- Promotes consistency in care and practice
- Spreads knowledge, expands capacity and accelerates collective wisdom

## No fee for participation

CE will be available for Physicians, Nurses and Social Workers. An AMA PRA non-physician Certificate of Attendance will be available for all other participants.
