

Take Problem Behaviors to Summer School

Have you ever wished you could start the new school year and make any problem behavior irrelevant? We have an opportunity for you!

- ✓ identify when behavior suggests the need for an assessment and intervention plan
- ✓ identify assessment tools to help determine why the behavior is occurring
- ✓ Craft a behavior intervention plan with replacement behaviors
- ✓ Identify ways to monitor progress
- ✓ Help with revising the plan if it becomes necessary

Join us for lunch

Take problem behaviors to
Summer School ECHO

Wednesday's Noon – 1:00 PM
June 13, 20 and 27th

Calling all: School Nurses, School Psychologists, School Social Workers, Primary Care, Behavioral Health Clinicians, Paraprofessionals, and Case Managers.

You and your colleagues are invited to join us in a three week ECHO focused on learning new skills to identify and deal with “problem behaviors.” We’ll have a panel of experts each week offering you the latest evidenced-based research and suggestions for best practices when these issues occur and what to do about them.

Thank You:

University of Kansas Medical Center, KU Center for Telemedicine and Telehealth, Telehealth ROCKS, and the US Health Resources and Services Administration

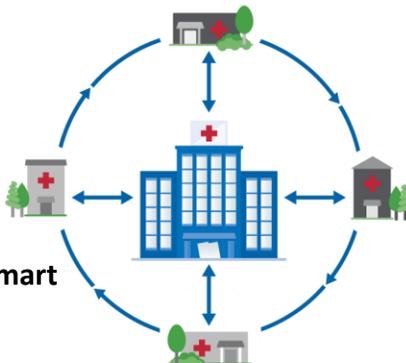

Empowering Providers to Identify and Address Problem Behavior

Extension for Community Healthcare Outcomes

Moving Knowledge, Not Patients

ECHO uses video-conferencing technology to offer mentoring. Connect from your computer, with a webcam and microphone, a tablet or smart phone to gain access to case-based learning and interdisciplinary teams.

Tele-ECHO Model

- Collaborative education
- Democratize and de-monopolize knowledge linking inter-disciplinary specialty team with practicing professionals
- Experts mentor and share their expertise across a virtual network

ECHO Partners

- Acquire new skills and competencies
- Become part of a community of practice and learning
- Gain access to inter-professional team of specialty providers and colleagues to offer support in how to manage patients with complex conditions
- Increase their professional satisfaction

Tele-ECHO Clinic

- Helps provide better access for patients in rural and underserved communities
- Reduces diagnosis and treatment disparities
- Provides rapid dissemination of new knowledge
- Promotes consistency in care and practice
- Spreads knowledge, expands capacity and accelerates collective wisdom

Take Problem Behaviors to Summer School ECHO

Curriculum Includes:

- June 13: What makes behavior a problem
- June 20: When and how to conduct a Functional Behavior Assessment
- June 27: How to create a behavior intervention plan and determine it's impact

No fee for participation

CE will be available for Physicians, Nurses and Social Workers. An AMA PRA non-physician Certificate of Attendance will be available for all other participants.
