

Cytometry Seminar Series

Tuesdays 2-3PM KLSIC 3051

March 11th - Mechanics & Assay Design

March 18th - Immunophenotyping and Surface Staining

March 25th - Intracellular Staining & Luminex or Bead Detection

April 1st - Cell Cycle, Proliferation and Cell Death

April 8th - Cellular Physiology - membrane potential, calcium flux, mitotracker dyes, soluble molecules

April 15th - Cell Sorting

April 22nd - Laser Scanning Cytometry

Presented by Joyce Slusser, PhD

KUMC Flow Cytometry Core Director
