

But what..... Is it good for?

-Engineer at the Advanced Computing Systems of IMB, 1968, commenting on the microchip

Technology has come a long way, and that's true of the student information system at KUMC! Students, faculty, and staff across the campus have experienced the benefits of the integrated student system, "SAKU"/Enroll and Pay.

Student Services Quick Facts

Student Information Systems

- KUMC successfully implemented the Student Financial Aid module for the 2005-06 school year.
- Students are able to have financial aid refunds direct deposited into their bank account.
- We are now able to do online Application for Degree processes.
- This past year, the Student Information Systems team developed a training evaluation and is using the results to improve training courses and methods.
- Need help with PeopleSoft? Training is available! To register go to <http://www.sakutrainig.ku.edu/>
- Thanks to our Student Information System, students can transact administrative University business from anywhere they can reach the internet.

Managing the Student Information Systems is a shared effort from staff on the Lawrence and Medical Center campuses!

For information on KUMC's role, contact:

Lisa Erwin, Associate Dean of Students
