Ireland Tips

1. If your program doesn’t provide housing, ask where the best places to stay are. I ended up staying farther out than I should have so I had a much longer commute.
2. Book your housing early! I booked mine a month out and it left me with very few options.
3. Say yes to as much as possible. Who knows when you will be back! Sometimes you will feel too exhausted to do anything but then you might miss out on dinner with coworkers, and they are the ones who really show you what it means to be a local.
4. If you are unsure of something, ask. Things are done differently wherever you go. Make sure to clarify the role of the student and always make sure to ask before you do something beyond that.
5. If you’re going alone don’t let that stop you from seeing and doing everything you want! Eat at a fancy restaurant! Stay at a B+B! The possibilities are endless for you!
