Introduction
This report is a listing of accredited degree and certificate programs at The University of Kansas Medical Center (KUMC) for which a national accrediting agency exists. In addition, for Graduate Medical Education, all residency and fellowship programs are listed, whether accredited or otherwise. The main purpose of this report is to provide an academic year snapshot of the accreditation status of KUMC programs, which is available to the public (http://www.kumc.edu/ea-mi/enterprise-analytics/kumc-data-(fact-books)/official-academic-accreditations-report.html). The report is also the basis for required reporting on accreditation of program to the Kansas Board of Regents.

All programs at KUMC are accredited under the umbrella of The University of Kansas by the Higher Learning Commission (HLC). The last comprehensive evaluation by the HLC was completed during the 2014-15 academic year. With an accreditation length of 10 years, the next site visit will occur during the 2024-25 academic year.

Abbreviations for Accrediting Agencies

---

1 The calendar year in which the most recent accreditation began. Under the Next Accreditation System (NAS), this is updated annually for programs with continued accreditation.

2 The calendar year in which the next site visit is estimated to occur. Most agencies now require annual reports and letters of good standing are sent out based upon review decisions. Issues that arise may initiate further actions. For GME programs, the estimated year for the next site visit under the Next Accreditation System (NAS), implemented July 2013 by ACGME.
