Department Administrative Assistant

Heather Ralph
hralph@kumc.edu

Mission Statement

The KUMC Department of Health Information Management (HIM) improves lives and communities in Kansas and beyond through innovative, applied learning in partnership with our students.

Vision Statement

To lead the nation in caring, healing, teaching, and discovering through a pioneering role in health information management.

Departmental Values

Authenticity – We engage others with openness, honesty, and respect.

Belonging – We contribute well to the team dynamic, caring for our students and colleagues.

Collaboration – We are accessible to others, and we seek out opportunities to partner with students, colleagues, and the community.

Diversity – We appreciate the variety of characteristics, qualities, experiences, and ideas that enrich our department and community.

Exploration – We embrace creativity, innovation, and the opportunity to discover.

Ethics

As HIM professionals, students and faculty of this program are expected to always uphold professional ethics. The AHIMA Code of Ethics outlines the ethical obligations of HIM professionals and is found at this [link to view AHIMA Code of Ethics](#).

Faculty

Kaitlyn Brown, MHSA, RHIA
Clinical Assistant Professor
kbrown15@kumc.edu

Kelly Clodfelter, RHIA, CCS, CRC
Clinical Instructor
kclodfelter@kumc.edu

Angela Couture, MS, RHIA
Clinical Assistant Professor & Academic Support Manager
acouture@kumc.edu

Kay Folck, MHA, RHIA
Clinical Assistant Professor
kfolck@kumc.edu

Bobbie Laincz, MSHI
Clinical Assistant Professor
blaincz@kumc.edu

Rosann M. McLean, DHSc, MS, RHIA, CDIP
Clinical Assistant Professor & Department Chair
rblackmore@kumc.edu

Adjunct Faculty

Seth Katz, MPH, RHIA, FAHIMA
Vice President of HIM, Revenue Cycle, & Finance, Truman Medical Centers
Seth.katz@tmcmcd.org or skatz@kumc.edu

Christina King, MHSA, PMP, RHIA
Project Management Consultant
cking8@kumc.edu

Richelle Marting, JD, MHSA, RHIA, CPC, CEMC, CPMA, CPC-I
Independent Attorney & Consulting Faculty
rmarting@kumc.edu

Angie Mauch, MHA, RHIA
Director, Hospital Revenue Cycle, University of Kansas Health System
amauch@kumc.edu

Lauren Pulino, MSHI, RHIA
Program Manager – Provider Learning & Usability, University of Kansas Health System
lpulino@kumc.edu

Francie Stoner, MT (ASCP)
CEO & Partner, DifCom Designs, LLC
westonfrancie@gmail.com

Accreditation

The Health Information Management accreditor of University of Kansas Medical Center is the [Commission on Accreditation for Health Informatics and Information Management Education](http://cahiim.org) (CAHIIM). The College's accreditation for baccalaureate degree in Health Information Management has been reaffirmed through 2021. All inquiries about the program's accreditation status should be directed by mail to CAHIIM, 200 East Randolph Street, Suite 5100, Chicago, IL, 60601; by phone at 312.235.3255 or by email at info@cahiim.org.

Documents relating to accreditation status are available at the department office by request.

Student Resources & Services

Library

A.R. Dykes Library, commonly referred to as *Dykes Library*, is the health science library at KUMC; on campus and online students have access to Dykes Library resources. Please visit the Dykes Library website to learn more about its hours of operations, resources, and services at <http://library.kumc.edu/>

Counseling and Educational Support Services

Various services are available to KUMC students through the Counseling and Educational Support Services department. Please visit the Counseling and Educational Support services website to learn more about resources and services available to students at <http://www.kumc.edu/student-services/counseling-and-educational-support-services.html>

Academic Accommodation Services

KUMC is committed to equal opportunity for all students. Each academic program has Technical Standards describing specific skills and outcomes a student must be capable of performing with or without accommodations to be successful in the program. A copy of the HIM program technical standards is found in [Appendix A](#).

For online information about academic accommodations, please go to www.kumc.edu/accommodations.

Office of Student Life

The Office of Student Life engages KUMC students in opportunities on campus and in the community. Please visit the Office of Student Life website to learn more about programs, resources, and services at <http://www.kumc.edu/student-services/office-of-student-life.html>

After Hours Technical Support

Evening and weekend technical support is available to students using KU information systems and technology. Refer to your course syllabus for further information about accessing after hours technical support.

Computers

Computers are available for use by HIM students on campus in the HIM laboratory classroom located in 2008 Orr-Major and in Dykes Library. Students may enter the HIM laboratory 24 hours a day, although only use the lab for study time when classes are not in session.

Departmental and School Functions

The HIM Department and School of Health Professions (SHP) sponsor activities throughout the year. Your cooperation is necessary to ensure the success of certain activities.

Attendance at the following activities is required for on campus students, and online students are encouraged to attend the last two events, if possible:

- HIM Department Student Orientation
- Student Award Luncheon (senior year)
- School of Health Professions Recognition Ceremony (senior year)

Information about these activities will be provided to students prior to the events.

Student Organizations

KUMC Student Engagement Opportunities

The Beat@KUMC is a centralized resource to learn about student organizations and activities. Visit The Beat@KUMC's website at <https://kumc.campuslabs.com/engage/> to learn more.

Future Health Information Professionals

The HIM student organization at KUMC is known as Future Health Information Professionals (FHIP). This organization is led by HIM students under the mentorship of advisors from the HIM department. FHIP members facilitate social and service activities and events.

School of Health Professions Student Senate

SHP Student Senate is a student organization representative of all SHP students. SHP Senate supports and facilitates student involvement and provides a voice in policies related to academics and student affairs. SHP Senate provides regular updates to Student Governing Council (SGC).

Student Governing Council

The SGC is a student run governance body with representatives from all schools of the KUMC campus: Health Professions, Nursing, and Medicine.

Professional Organizations

Opportunities exist for HIM students to attend professional meetings and/or participate in networking activities through professional organizations in the HIM profession. Students are encouraged to attend these events to begin developing their professional network. Some courses in the program require attendance at such events.

All on campus HIM program students are required to maintain student membership with the American Health Information Management Association (AHIMA).

Online students already credentialed in the HIM profession must maintain active member status with AHIMA. If you are an online student without an existing HIM credential, you are eligible for AHIMA's student membership option; please contact your advisor with questions.

The following describes professional associations in which students are encouraged to participate (each state maintains a component state association (CSA) of AHIMA; the following states are mentioned due to their regional proximity to KUMC):

American Health Information Management Association (AHIMA)

[AHIMA](#) is the national organization for the health information management profession. Please review the AHIMA website for more information.

Kansas Health Information Management Association (KHIMA)

[KHIMA](#) is the CSA representing HIM professionals, including students, across the state of Kansas. Please review the KHIMA website for more information.

Missouri Health Information Management Association (MoHIMA)

[MoHIMA](#) is the CSA representing HIM professionals, including students, across the state of Missouri. Please review the MoHIMA website for more information.

Kansas City Health Information Management Association (KCHIMA)

[KCHIMA](#) is a local association of HIM professionals in the Kansas City metropolitan area.

Policies

The following policy statements have been approved by the Department of HIM. These policies, stated in broad terms, establish parameters and expectations of students. Students must also abide by policies set forth in the SHP Student Handbook. The SHP handbook is located here: <http://www.kumc.edu/school-of-health-professions/student-handbook.html>

Annual Confidentiality Agreement Policy

Students in the HIM program are required to sign an annual confidentiality agreement due to HIM student exposure to protected health information (PHI). A copy of this confidentiality agreement is found in [Appendix D](#).

Annual Training Requirements Policy

HIM students complete mandatory online annual compliance trainings. Information about completing these trainings is sent to KUMC email addresses from Saba@kumc.edu and must be completed between the dates of October 5 – October 29, 2021. Failure to complete annual compliance training results in a student account hold, therefore prohibiting future enrollment, as well as other sanctions such as losing access to the KUMC computer network and information systems; these sanctions are imposed November 2, 2021. Late work which a student is unable to submit due to losing network access because of training noncompliance is not accepted.

Viewing KU Health System Electronic Health Records Policy

In some courses, on campus HIM students may view electronic health records (EHR's) in the KU Health System EHR, a system known as *Epic O2*. Access of KU Health System EHR's is restricted to classroom use only and access must comply with the following requirements:

- Students will not access the records in O2 Epic remotely or outside of class time without direct supervision of the faculty.
- Access to the O2 Epic system is strictly limited to completing lab modules and classroom activities. Students are not allowed to access records other than the ones assigned by the instructor.
- Students may not record individually identifiable data elements, and students are not permitted to keep direct links or lists of any sort which contain protected health information. Any information or notes created by the student regarding encounters reviewed must be of a nature where it is impossible to figure out who the data or information pertains to. Obvious examples of protected health information include patient name, medical record number, and home address. Less obvious examples include instances where diagnosis and procedure code numbers describe an encounter so unique that a reader might be able to determine the identity of a patient.
- Improper use and disclosure of protected health information is not permitted.

- Access is monitored and tracked according to health system policy.
- Some students have access to O2 Epic for job duties as employees. These guidelines pertain only to academic use of O2 Epic. These guidelines are not intended to prohibit students from using O2 Epic in other authorized activities.

The following documents must be signed by the HIM Student before access to O2 Epic system is granted:

- HIM Student Confidentiality Agreement – Student signs acknowledgment form indicating their agreement to what is outlined in [Appendix D](#) of this handbook.
- The University of Kansas Hospital Authority Confidentiality Agreement/Signature Attestation– Student signature obtained on this document when request for O2 access submitted.

E-Mail Policy

To protect student privacy and comply with federal student information privacy laws, students must use their KUMC email account when emailing faculty, staff, or the department chair. Email sent from other email addresses may not receive a response. When sending email to faculty, staff, or the department chair, students should demonstrate professionalism and send emails that are appropriate in nature and scope. Email should be run through spell check and grammar check before sending. The subject line of all email should be clear regarding the content of the email and the associated course number, if applicable. The following offers examples of appropriate versus inappropriate email:

Appropriate email examples:

- Questions about course content in which the student requires additional explanation to understand course content.
- Requests for feedback or clarification about assignments.
- Notifications that student will be absent.
- Requests to identify appropriate KUMC personnel or resources to assist with personal concerns or matters.

Inappropriate email examples:

- Redundant questions already answered within course syllabi or otherwise in course material.
- Complaints with an unprofessional tone.

Equal Opportunity/Title IX Policy

KUMC is committed to the elimination and prevention of discrimination or harassment based on race, religion, color, ethnicity, sex, disability, national origin, ancestry, age, status as a veteran, sexual orientation, marital status, parental status, gender identity, gender expression, genetic information, or retaliation. The KUMC Sexual Harassment Policy also prohibits all forms

of sexual violence, including domestic violence, relationship violence, stalking and assault. Allegations of violations of the University's Nondiscrimination Policy are investigated in accordance with the Discrimination Complaint Resolution Process. Additionally, KUMC prohibits retaliation against anyone who files a complaint or otherwise participates in the complaint process. Equal Opportunity policies and procedure are available [here](#). If you believe that you are being discriminated against or harassed, contact Natalie Holick, KUMC's Title IX Coordinator, at (913) 588-8011 or noholick@kumc.edu to discuss your rights and options for filing a complaint or taking other steps to stop unwelcomed behavior.

Religious Accommodations Policy

KUMC respects the religious diversity of its students and will make good faith efforts to provide reasonable religious accommodations for the sincerely held religious beliefs, practices or observances of its students when they conflict with University policy or procedure. Such accommodations must not fundamentally affect the University's mission or commitment to patient care or otherwise create an undue hardship. If you wish to submit a request for religious accommodations, please visit the [Equal Opportunity and Academic Compliance website for religious accommodation](#).

Dress Code Policy

As a student in a professional program in a medical center setting, HIM students are expected to present themselves with a clean and well-groomed appearance, including clothing that is appropriate.

Your appearance reflects on yourself, the school, and our profession as the student interacts with other professionals throughout KUMC. Examples of appropriate dress on campus include:

- Non-wrinkled clothing
- Clean clothing
- Street clothes (not workout clothing)

NOTE: It is required that professional business attire is worn at all professional practice experience sites, in-class presentations, and fieldtrips.

Gun Policy

KUMC prohibits faculty, staff, students, and visitors from carrying weapons of any type on its Kansas City, Kansas campus. For additional information, please see the [University of Kansas Policy on Weapons, Including Firearms](#). Students who conceal carry on the Lawrence or Edwards campuses are responsible for making alternative arrangements when attending classes in Kansas City. Students can transfer a handgun from a backpack or purse to a secure location such as the trunk of their locked vehicle. Individuals who violate the weapons policy or procedures will be asked to leave campus with the weapon and may face disciplinary action under the appropriate University code of conduct.

Attendance Policy

HIM students are expected to attend all scheduled class sessions and PPEs promptly and consistently.

Absenteeism that exceeds three (3) class days within a course requires a meeting with the instructor, notification to the Department Chair, and may result in a reduced letter grade. An absence equals a missed class or arriving 15 minutes or later to class. Continued infringements are referred to the Department Chair for corrective action.

Refer to course syllabi for individual instructor class policies and procedures as they may be more or less stringent than what is previously described. Chronic absenteeism will result in the student being considered for dismissal from the program. These decisions are made by a committee comprised of faculty and the HIM department chair. A student in jeopardy of dismissal is notified of the committee meeting and subsequently notified of the committee's decision within 5 working days from the date of the meeting.

Unanticipated Absence Policy

When a student is absent from class because of an unanticipated event, such as illness, the student is responsible for notifying their instructors. Instructor notification should include an explanation of the absence. In the case of documented short-term absence due to illness or other unanticipated circumstance, instructors should provide reasonable effort to accommodate the student in a way that maintains the integrity of the class. **Any student diagnosed with COVID-19 should notify the Department Chair and their professors. A documented diagnosis of COVID-19 or requirement to quarantine due to exposure warrants flexibility for the student as it relates to due dates, completing coursework, etc., until which time the student is given clearance to return to campus.**

Unanticipated Absence Affecting Assignments and Tests Policy

Instructors have the right to request documentation to substantiate an absence if the absence causes the student to miss an assignment, exam, or any other required work for the class affecting the course grade. If the instructor excuses the absence, the options available to make up missed work may be limited and is determined by the instructor within the limits of the course.

If a student is absent from an exam, there is no guarantee of a makeup opportunity. The course instructor may elect to give a make-up exam; if this is done, the exam must be made up the day the student returns to class, or at the convenience of the instructor.

Students are held to the expectations outlined in the HIM Student Handbook when seeking any accommodation due to absence.

In accordance with University policy, absences due to religious observance are excused (please see religious accommodation policy previously noted in this handbook).

The HIM department may allow additional absences under the following circumstances:

- A student's participation in an educational, HIM related activity ("school related activity"), and
- The student has consulted with their instructor(s) regarding anticipated excusable absences prior to participating in the school related activity.
- An absence associated with childbirth per the following KUMC childbirth accommodation policy, timelines, and forms. Students needing an accommodation due to upcoming childbirth should contact the department of Equal Opportunity and Academic Compliance at 913-588-8011.

Students who experience personal difficulties that may prevent them from complying with this policy are strongly encouraged to meet with the instructor to discuss what arrangements might be available to help with their situation.

Attendance requirements, reflected as participation requirements, for online students may differ from the requirements for on-campus students. Please refer to your course syllabi.

Course Assignment Policy

The course syllabus is the academic contract between the instructor and student and outlines grading criteria and the types of assignments in the course. The course schedule provides a detailed account of course activities and their respective due dates. All assignments are delivered via Blackboard and serve as milestones for measuring academic success and attainment of requisite knowledge, skills, and experience. Course instructors will establish clear expectations for student success in the course syllabi and course schedules.

Student failure to submit graded material within defined due dates negatively affects the student's grade for the course. Assignments submitted for a grade are to be completed individually except in situations where assignment instructions indicate the assignment is a group project or other permission has been granted by an instructor to work in groups. All due dates and times are Central Standard Time (aka Chicago time).

Grade Policy

The letters A, B, C, D, F, I are used within HIM program. A student should refer to individual course syllabi regarding the possibility of I (incomplete) grades and be aware that not all faculty permit the use of incomplete grades. Final grades of "D," or lower, are not accepted in the HIM program. Students must receive a "C" grade or above for HIM courses to count toward graduation requirements.

A consistent grading scale is used throughout all the courses taught within the HIM Program. The scale is as follows:

90% to 100% = A

80% and less than 90% = B

70% and less than 80% = C

60% and less than 70% = D

0% and less than 60% = F

Students are responsible for monitoring their grades and recognizing when their anticipated course grade is below course and Departmental standards, or when their anticipated grade places them in academic jeopardy. Students are expected to seek assistance from the course instructor if they need additional support from faculty to be successful.

Program GPA Maintenance Policy

While enrolled in this degree program, HIM students are required to maintain a 3.0 or higher program grade point average (GPA); this GPA calculation is based only on HEIM numbered courses required to complete a BS in HIM degree from this department. Failure to meet GPA requirements will result in academic probation and can lead to dismissal from the HIM program.

At the end of each semester, the department chair will review the records of all students whose semester cumulative GPAs are below the above-stated requirements. Those students will be **notified in writing** that they have been placed on probation.

The official written notification regarding probation status shall include the following information:

- the reason the student is being so notified
- the potential consequences of the circumstances,
- the time frame in which the student may attempt to rectify the situation,
- the steps necessary to rectify the situation,
- the name of a faculty advisor appointed to assist the student, and
- the consequences of an unsuccessful attempt to resolve the matter in the specified time. *

* At the discretion of the HIM Department, an extension may be granted. Documentation of this arrangement must be attached to the original notification.

If, by the end of the next semester, the student's program GPA has been raised to the minimum required, the student returns to regular status. If the GPA remains below the required minimum, the student will be considered for dismissal from the program.

Degree Application Policy

Degrees are awarded to students who meet all requirements of the HIM program by the last day of final examinations their senior year. Degree candidates are required to complete an online "application for degree" form (AFD) through Enroll & Pay. This step must be taken by the student to initiate the graduation process. Failure to perform this task will result in ineligibility to graduate until the next graduation cycle.

The Registrar's office notifies students by email during the Spring semester of the deadline for submitting AFD's with the intent to graduate in May. Refer to the Academic Calendar to confirm the AFD due date at <http://www.registrar.ku.edu/calendar/>.

Course Retake Policy

HIM students receiving a "D" or "F" in an HIM course may request to retake the course. Permission to retake a course is granted at the discretion of the course instructor in collaboration with the chair, and final approval for course retakes rests with the department chair. Students may only retake a course one time.

Other Student Requirements and Notices

Computer Requirements

Students are required to purchase their own laptop that *meets* requirements specified by KUMC. Please review [Appendix B](#) and [Appendix C](#) of this document for additional information.

Smart Phones and Electronic Devices

For on campus courses, the appropriate use of smart phones and electronic devices is addressed in individual course syllabi. Guidelines may vary among courses.

Course Specific Requirements

Faculty provides students with a syllabus and course schedule for each course offered by the Department of HIM. Students are expected to abide by all expectations outlined in course syllabi and schedules.

Student Health Requirements

On campus students are subject to student health requirements. Until your health requirements are complete, you will have a Student Health hold on your account preventing your enrollment. Prolonged negligence in completing student health requirements results in denied technology access and incurred fees.

Specific health requirements for student participation in Professional Practice Experiences (PPEs) or internships are determined by the contractual agreement with each facility. To participate in PPEs or internships with an organization to which the student has been assigned, these health requirements must be completed prior to starting the assignment.

For more information about Student Health Requirements, please visit the [Student Health Services website](#).

RHIA Certification Exam Requirement

All senior year HIM students are required to apply for and schedule to take the Registered Health Information Administrator (RHIA) certification exam via the application for early testing. This option allows students to sit for their RHIA exam during their final semester before

graduation. This requirement is part of HEIM 665 Topics in HIM, and failure to complete this obligation results in an incomplete course grade and delayed graduation. Additional information is provided to students about this process in HEIM 665 Topics in HIM.

Graduation Requirements

A minimum of 120 eligible credit hours are required to graduate from this program with a Bachelor of Science in HIM. The final 30 credit hours of junior-senior (300-699 level) must be taken from the KU-HIM program, and a minimum of 45 upper-division credit hours must be demonstrated on the student's transcript. Students must meet with their advisor to ensure an adequate number of credit hours are being obtained. A reporting tool called the Degree Progress Report (DPR) is also available through the myKUMC web portal. Students are expected to monitor their progress in the program through the DPR and contact their academic advisor with questions.

Smoking Ban

The University of Kansas Medical Center is a non-smoking campus. Prohibited forms of smoking include smoking of traditional tobacco cigarettes or products, as well as vaping devices.

International Students

Individuals who are not citizens or lawful permanent residents of the U.S. are required to check in with the KUMC Office of International Programs immediately upon arriving at KUMC, before commencing any program of work, study, or research. For more information, please see: <http://www.kumc.edu/international-programs.html>

Management Internship

For on campus students, the HIM program culminates in a mandatory 3 credit hour, 4-week long capstone experience for the student. This internship occurs following the completion of all academic course requirements for graduating with a B.S. in HIM degree. All HIM junior and senior coursework must be completed by the student (with a grade of "C" or better) prior to participating in this experience. [Appendix F](#) provides complete information about the internship.

Management Practicum

For online students, the HIM program culminates in a mandatory practicum experience completed during the final semester in the program. Like the management internship previously described, students completing the management practicum must be in appropriate academic standing and in their final semester. [Appendix F](#) provides complete information about the practicum.

Professional Practice Experience (PPE) Explanation

Professional practice experiences (PPE) provide hands-on experience in, or information about, professional practice in HIM. PPE offers students a way to learn about their chosen profession, as well as apply what they have learned in class to real-world settings.

- Attendance at all assigned PPEs is required. Barring a true extenuating circumstance, absences are not permitted.
- The student is responsible for his/her travel arrangements to any off-site activity. Carpooling is encouraged.
- Facility location and contact information will be provided for each PPE activity.

Other Information for Students

Advising and Enrollment

Student advising is provided throughout all semesters of the HIM program, and students are encouraged to meet with the program advisor.

Enrollment instructions are provided to students prior to each semester. These instructions contain course-specific information needed to enroll through the Enroll & Pay system.

Course Waivers

In limited situations, HIM course requirements may be waived based on completion of comparable content in prior studies. If a student desires to use another institution's course in lieu of one in the program, they must meet with their advisor to discuss the matter. The process for initiating and reviewing a course waiver request is also the same as that for transfer of credit. Refer to Relevant KU Policies:

- <http://policy.ku.edu/admissions/transfer-coursework>
- <http://policy.ku.edu/admissions/associate-arts-degree-KU-core>

If the advisor believes it appropriate to consider previous coursework in lieu of coursework in the KU-HIM program, the student is responsible for furnishing the course description and syllabus from the prior course and providing rationale for their request. Not all requests are approved. If such request is approved, the student must also be able to attain sufficient credit hours to be eligible for graduation.

Course Evaluations

Course evaluations are an integral part of our program accreditation requirements and internal process improvement efforts. All evaluations are completed anonymously on-line by students. Students are strongly encouraged to complete course evaluations.

Student Employment Schedules

Students must prioritize academics. Students enrolled in the full-time, on-campus HIM program are strongly encouraged to limit their employment schedules to 20 hours per week or less. A student's successful academic performance requires two hours per scheduled classroom-hour, dedicated to non-classroom coursework. Students are not allowed to schedule employment obligations that conflict with academic requirements of the HIM program.

Scholarships and Awards

Scholarships and awards are available from the Department of HIM and SHP. In addition, AHIMA and CSA's of AHIMA (KHIMA, MoHIMA, etc.) offer scholarships and awards to HIM students. More information and the criteria are provided to students when such opportunities arise.

Conduct and Professionalism Expectations

HIM students are responsible for reading the following information about professionalism and conduct, to include viewing information linked to via hyperlinks. Please also review [Appendix E](#) for additional information.

Professionalism

Professionalism is expected, and HIM students must comply with professionalism standards and policies of the SHP. Please visit the [School of Health Professions Student Handbook](#) and read the section on Professional Conduct.

We expect students to express a concern and respect for the rights, dignity, and contributions of all people regardless of differences, in all interactions – including with peers, faculty, and stakeholders of the HIM profession. Indeed, an ability to understand the beliefs, attitudes, and values of other individuals and to value their contributions is a crucial trait for successful and effective practice. KU Medical Center offers frequent opportunities to explore and enhance your understanding of [Diversity, Equity & Inclusion](#). Your practice and professional career both will benefit from thoughtful incorporation of these principles.

Viewing and Use of Protected Health Information in Medical Records

Per HIM Department policy, a student who knowingly breaches a patient's rights to privacy and confidentiality by disclosing Protected Health Information (PHI) as specified by the Health Insurance Portability and Accountability Act (HIPAA) is committing academic and nonacademic misconduct. A breach may include actions such as, but is not limited to:

- accessing electronic or paper-based health records in an area where others can view it
- printing PHI
- sharing patient information details via social networking sites such as Facebook, Twitter, Instagram, TikTok, etc.
- texting or photographing excerpts from health records with a smart phone or other device

In addition to the above, it is never permissible to delete or alter PHI in medical records.

Academic and Non-Academic Misconduct

Academic honesty and integrity are expected. Your ethics in academia reflect your ethics as an HIM professional. Maturity, ethical virtues, and professionalism are necessary traits for those in the HIM profession.

HIM students must avoid actions and behaviors considered academic or non-academic misconduct as outlined in the policies of the SHP. Please visit the [School of Health Professions Student Handbook](#) and read the section on the topic of Academic and Non-Academic Misconduct.

Actions Related to Academic and Non-Academic Misconduct

In instances of alleged misconduct, the HIM Department Chair may impose sanctions as described in the SHP student handbook, which include warning, probation, suspension, or dismissal. The HIM Program does not use a progressive disciplinary approach by which a warning is required before probation, etc. Please visit the [School of Health Professions Student Handbook](#) and read the section on the topic of Actions Related to Academic and Non-Academic Misconduct within the Performance Standards and Policies section.

Resolving Disputes Between HIM Students, Faculty, Staff, or Program

The student will make a good faith effort to resolve the matter with the party involved. Should the matter not be resolved, the following steps are taken:

Brief Outline of Steps for Resolving Disputes in the HIM Program

1. Discuss issue with immediately involved parties (if unresolved);
2. Discuss issue with HIM Department Chair (if unresolved);
 - If the issue involves the Chair, students may discuss the matter with their advisor
3. If applicable to the issue, submit letter requesting to meet with the HIM Academic Review Committee** (if unresolved)
4. If applicable and issue pertains to academic or non-academic misconduct, the student should refer to their appeal rights as outlined in the SHP Student Handbook

**An ad hoc Academic Review Committee may be established to review decisions made by the Department Chair. Typically, the Academic Review Committee consists of at least 2 HIM faculty and 1 faculty from another academic program at KUMC. The members are appointed on the basis that they are uninvolved and unknowledgeable of the issue under review. In the rare instance HIM faculty members are unavailable to serve on this committee, faculty from other departments on campus will be selected.

Avoiding Plagiarism

Plagiarism is prohibited. Resources are available to assist you in avoiding plagiarism. Please review the [KU Writing Center Guides](#) section titled “Avoiding Plagiarism”. You may also schedule an appointment with writing center staff for assistance.

HIM faculty may use a plagiarism prevention tool called “SafeAssign.” In a course using Safe Assign, your papers are submitted through KUMC’s learning management system Blackboard’s SafeAssign plagiarism prevention service. SafeAssign checks papers for plagiarism against Internet sources, academic journal articles in library databases, the KUMC SafeAssign database, and the Global SafeAssign database, and provides your instructor with a line-by-line comparison of your text and matching text in other publications. Your instructor can use this information to determine if information is properly cited and referenced. When submitting your paper, you can choose to include your paper in the Global SafeAssign database. This option is voluntary and helps protect your work from plagiarism by other students.

Emergency and Disaster Preparedness Information

KUMC Campus Police Department Contact Information

To contact the KUMC Police Department, dial 9-1-1 from any landline phone on campus or dial 913-588-5030 from any smart phone. It is recommended that you add the KUMC Police Department as a contact in your phone with their number 913-588-5030. Be aware that placing a 9-1-1 call from your cell phone while on campus routes your emergency call to the Kansas City, KS police department, who then must call our internal KUMC Police Department. This delays response times to emergencies. The KUMC Police Department can also be reached at 913-588-5030 for non-emergencies.

Campus Emergency Alert System

KUMC uses a redundant system for emergency alerts to ensure all campus community members receive emergency notifications. To do this, KUMC utilizes the Alertus system, which projects emergency messages on wall beacons and computer screens, the RAVE text messaging system, as well as emails, and other social media alerts. These systems allow the KUMC Police Department to communicate with the campus in real time during an emergency. Emergencies communicated through these various mediums include things such as notifications about:

- Severe weather that requires immediate action;
- Situations that affect public safety;
- Environmental dangers on campus.

KUMC **blue phones** are located throughout the campus for use in emergency and non-emergency situations. These phones are answered 24/7 by KUMC police dispatch. The following website provides information about blue phone locations:

<https://www.kumc.edu/public-safety/safety-on-campus/blue-phone-locations.html>

Evacuation Plans

If enrolled in an on-campus course, please refer to your course syllabi for evacuation plans applicable to the building in which you are attending class.

Campus Map

To familiarize yourself with the KUMC campus, please refer to this webpage <http://www.kumc.edu/about-us/kumc-campus-map.html>

Shelter-in-Place

Shelter-in-place is a directive to seek immediate shelter indoors or stay where you are if already indoors. An order to shelter-in-place is given over the Alertus system. If enrolled in an on-campus course, please refer to your course syllabi for details about shelter-in-place locations in the event of severe weather. If you are ordered to shelter-in-place, stay in the designated shelter area with your HIM student peers and faculty until the “all clear” signal is given, or you are otherwise notified it is safe to leave. In cases of immediate severe weather making safe passage to designated shelter areas dangerous, you should take cover in the lowest part of the building and away from glass windows, doors, or other dangerous areas.

Active Shooter Threats

An active shooter threat is a dynamic situation. When faced with an active shooter or other active threat situation, determining the best course of action depends on an assessment of the situation.

To learn about responding to an active shooter, please visit the KUMC Emergency Management website: <http://www.kumc.edu/emergency-management/emergency-procedures/active-shooter--active-threat.html>

Proper Use of a Fire Extinguisher

Remember P.A.S.S.

“P” Pull the pin.

“A” Aim the nozzle at the flame

“S” Squeeze the trigger

“S” Sweep from side to side

Building issues

In the event of an emergent structural, environmental, or physical issue or threat to any campus building, please call facilities management at 913-588-7928.

Student Verification of Handbook and Other Required Agreements

Each student is required to complete an acknowledgement form acknowledging that he or she has received this handbook. Signing the acknowledgement form is verification from the student to the Department of HIM that they have read the handbook in its entirety and sought clarification from the Department Chair should they have questions. Signature on the acknowledgement form is considered your agreement to abide by all policies, procedures, and requirements of the Department of HIM.

COVID-19 Additional Information

During the 2021-2022 academic year, aspects of student life, academics, and health and safety requirements are subject to change. HIM students will be consistently and promptly notified if policies and procedures related to COVID-19 change. Because of the emergent nature of a pandemic, HIM students are provided information regarding the health and safety of our campus community. Students with questions related to the topic of COVID-19 should contact the HIM Department Chair for assistance and guidance.

Appendix A: Technical Standards

The University of Kansas Medical Center
School of Health Profession
Department of Health Information Management
Technical Standards

Upon successful completion of the Health Information Management program, the student receives a Bachelor of Science degree in Health Information Management (HIM) and is then eligible to sit for the Registered Health Information Administrator (RHIA) certification exam. HIM professionals work in various capacities throughout the healthcare delivery system in roles which are technical, administrative, and/or managerial in nature.

The following technical standards must be met by all students **with or without** accommodations:

Observational

HIM students must be able to learn from experiences and understand content in didactic and clinical settings. This includes, but is not limited to:

- Medical record content, to include discernment and use of clinical and administrative data displayed within the medical record
- Statistical, financial, and reimbursement data, to include utilizing spreadsheets, software, databases, and performing mathematical calculations
- Management and leadership techniques and styles
- Information systems and technology
- Clinical concepts

Communication

HIM students must be able to communicate effectively and efficiently in English, to include in electronic formats, with other students, faculty, staff, researchers, and the public.

Effective communication includes the ability to:

- understand assigned readings, lectures, and technical and professional materials
- analyze information
- present results of such analyses
- independently prepare papers and presentations
- follow instructions

Use of computers and other technology is imperative to this communication for manipulating medical records, assimilating information, producing documentation, and interpreting data.

Sensorimotor

HIM students must have gross motor, fine motor and equilibrium functions reasonably required to access information from or use the following:

- a computer, keyboard, touchscreen, or mouse
- a phone
- other office equipment (i.e., printers, scanners, copy machines, etc.)

HIM students must be able to physically manipulate medical records (i.e. turning pages, assembling, sorting, carrying, lifting, filing, etc.).

HIM students are required to travel to a variety of traditional and nontraditional facilities for professional practical experiences.

Intellectual, Conceptual, Integrative, Quantitative, and Problem Solving

HIM students must be able to make decisions, to include understanding the rationale for their decisions and how to justify decisions. This includes performing the following:

- measurements and calculations
- reasoning and comprehension
- performing and analyzing needs assessments
- synthesizing information from a variety of sources

Behavioral and Social

HIM students are expected to exhibit professional behavior and attitude during their participation in the classroom and clinical situations. This includes, but is not limited to:

- using appropriate language
- demonstrating competency in stressful situations
- accepting responsibility for one's own actions
- establishing and maintaining healthy relationships with faculty, peers, supervisors, patients, and other stakeholders
- completing tasks and assignments as required by faculty or supervisors

HIM students are expected to demonstrate professional characteristics indicative of success in the profession of health information management. This includes, but is not limited to:

- being honest and ethical
- demonstrating empathy when appropriate
- demonstrating responsibility for oneself
- working effectively in teams

NOTE: Reasonable accommodations will be considered and may be made to qualified students who disclose a disability, so long as such accommodation does not significantly alter the essential requirements of the curriculum and the training program, or significantly affect the safety of patient care. Students who disclose that they have a disability are considered for the program if they are otherwise qualified. Qualified students with a disability who wish to request accommodations should provide the appropriate documentation of disability and submit a request for accommodation to the University's Office for Academic Accommodations. Students may submit this request by contacting 913-945-7035 or cukoko@kumc.edu.

Appendix B: Student Technology Requirements

KUMC Department of Health Information Management

Student Technology Requirements

HIM students are required to own a laptop computer for academic use; this device must be Windows-based PC and not a Mac/Apple IOS device. If you currently own a device or need to purchase a new one, you are responsible for confirming that it meets the listed requirements at the website provided in the following paragraph.

To ensure your device meets hardware and software minimum standards as indicated in the Student Computer Requirements, please visit this webpage: <http://www.kumc.edu/school-of-health-professions/health-information-management/student-computer-requirements.html>

HIM students must also review each course syllabi for any additional software or technical supply requirements.

Appendix C: Computer Agreement

KUMC Department of Health Information Management

Student Computer Agreement

As an HIM student, you are responsible for coming to class with a fully charged and working computer that meets the minimum laptop requirements. During and outside of class time you should be prepared to use your computer for tasks such as but not limited to:

- Accessing and downloading course documents
- Turning in assignments
- Taking notes
- Completing assignments, quizzes, and exams
- Posting to discussion boards
- Accessing the internet
- Connecting to the KUMC secure network
- Accessing HIM software programs

With your computer, you will have access to KUMC's network where you will use the Internet to access Blackboard, the learning management system. Wireless Internet is available throughout campus or through a hard-wired connection in the HIM Computer Lab. The Department of HIM also has industry-specific software that you will be required to use for assignments.

- It is the student's responsibility to maintain a backup of all work. "Lost" work will not be accepted as an excuse to miss an assignment.
- It is the student's responsibility to maintain a functional laptop/tablet that always meets the minimum computer requirements. Failure to do so may result in a "0" for an exam or assignment, should the student be unable to complete the work as required and on-time using their device.
- The University will not provide technical support for your personal laptop/tablet. It is your responsibility to maintain your system and to minimize downtime. The University Jayhawk Tech Clinic is available to assist students with software and hardware issues arising from course or program requirements.
- The Department of HIM has instituted a ban on Mac devices for use in the HIM program. Macs are not the industry norm in healthcare facilities and do not work well operationally with the type of industry software used in healthcare and in this degree program. Program faculty and staff are unavailable to assist with Mac issues.

First- and second-year students in KU HIM program are eligible to appeal their cost of attendance to reimburse for the purchase of a computer/related tech expenses. A student may request a technology budget increase more than once during their program; however, the total adjustment may not exceed \$2,500 and the student may not appeal for the same item more than once. Please contact the [Office of Student Financial Aid](#) for more information.

Appendix D: Confidentiality Agreement

KUMC Department of Health Information Management

HIM Student Confidentiality Agreement

Patients are entitled to confidentiality of their health and personal information. The right to confidentiality of health information is protected by state law and federal privacy regulations known as the Health Insurance Portability and Accountability Act (“HIPAA”). Those regulations specify substantial penalties for breach of patient confidentiality. The following summarizes student obligations to health information confidentiality:

- All patient health and personal information are confidential and must be held in strict confidence. You cannot discuss this information with friends or family. Information may only be shared with health care providers, supervising faculty, hospital or clinic employees, and students involved in the care or services to the patient or involved in approved research projects or classroom assignments who have a valid need to know the information.
- Students must not record individually identifiable data elements, and students are not permitted to keep direct links or lists of any sort which contain protected health information. Any information or notes created by the student regarding encounters reviewed must be of a nature where it is impossible to figure out who the data or information pertains to. Obvious examples of protected health information include patient name, medical record number, and home address. Less obvious examples include instances where diagnosis and procedure code numbers describe an encounter so unique that a reader might be able to determine the identity of a patient.
- Students will not copy, print, share, or otherwise release protected health information viewed during HIM program courses. The only possible exception to the former is if the student completes release of information tasks as part of a professional practice experience or management internship; in such instances, the student will rely on their site preceptor to ensure the task was completed within accordance of federal health information privacy rules and regulations.
- Usernames and passwords assigned to you for access to information systems are confidential. Only the individual to whom the username/password is issued should know the login credentials. No one may attempt to obtain access through any computer network or information system to obtain information to which he/she is not authorized to view or receive. If you are aware that another individual knows your username/password, it is your responsibility to request a new username/password.
- If a violation of this policy occurs or is suspected, immediately report this information to your supervising faculty.

- Violations of this policy will result in disciplinary action up to and including termination from the program.

Appendix E: Code of Conduct Agreement

KUMC Department of Health Information Management

HIM Student Code of Conduct Agreement

Each student is an important member of our HIM class community and has a responsibility to himself/herself, to the instructors, and to his/her classmates to support and contribute to the Department of HIM's learning community. This Code of Conduct is established to ensure that all students have a clear understanding of the expectations your instructors have regarding your conduct in your KUMC HIM classes.

It is the responsibility of each student to:

- Act in a professional manner by treating all students, instructors, and guests with dignity and respect in face-to-face and virtual interactions
- Comply with KUMC information technology policies
- Comply with academic and non-academic misconduct policies of the SHP
- Participate respectfully and professionally in team collaborations, projects, and peer reviews.
- Be self-motivated and self-directed and strive to:
 - Manage time efficiently
 - Approach classes with a desire to learn
 - Assume leadership roles and voluntarily assist others when appropriate
 - Develop necessary technical and practical skills
 - Submit constructive suggestions for course improvements
- Become familiar with and abide by all program-level and course-level policies and procedures found in syllabi, course materials, student handbooks, and other materials provided to students in this program.

Appendix F: Internship/Practicum Agreement

KUMC Department of Health Information Management

Internship/Practicum

An internship, also called a capstone experience or practicum, is required for all graduating HIM students. Hereafter the document will use the word “internship” to describe both internships and practicums. All program coursework must be successfully completed with a “C” or better prior to participating in the internship. The HIM program sets the internship timeline. This opportunity is designed to serve as a practical experience in an HIM-related environment.

This is a mandatory, 3 credit hour internship.

On campus students are expected to, at a minimum, participate as follows per the directions of their internship preceptor:

- An externally precepted, 4-week, 20 hours/week, internship; the format for the internship is unique to the healthcare organization and its workforce plans, which may include onsite, partially virtual and partially onsite and/or virtual experiences.
- A larger project or multiple smaller projects; project(s) are of nature and scope of management-level work.
- Attend at least one institutional or organizational committee meeting, which meets to address a topic of relevance to an HIM Practitioner
- Attend at least one staff meeting
- Exposure to administrative and/or clinical information systems, either through training, shadowing, and/or hands-on experience with an information system

Online students work with the internship course instructor to develop individualized completion plans. You will complete an assigned project or series of smaller projects (determined in collaboration with and completed under the direction of an external preceptor) in a healthcare organization; time spent on the project(s) should be approximately 80 hours.

In addition to the above, both on campus and online students during the 4-week period of this internship, complete 4 weekly modules in Blackboard containing additional professional practice experience, projects, guest speakers, and tasks tailored for management-level HIM practice. All students will additionally complete a portfolio and give a presentation outlining their projects.

The internship is considered coursework, and the student will not receive any reimbursement for expenses or compensation for this experience. You are responsible for all associated expenses such as drug tests, background checks, room and board, transportation, parking, and any site onboarding fees associated with the internship. The examples of potential expenses should be considered as examples and not considered an all-inclusive list.

The internship course instructor will assign students to internship sites for which our program has an affiliation agreement.

Other mandatory guidelines:

- The responsibility for the safety of the student, and for the student's property, will rest completely with each individual student while on their internship.
- The student must meet all health requirements determined by their assigned internship site, including proof of drug free status, proof of vaccinations (as determined by the site per their policies), etc., to complete the internship. If the student is unable to meet the health requirements of the internship site, they are obligated to notify the internship course instructor immediately upon this determination. Attempts will be made to place the student at an alternative site, but placement cannot be guaranteed.
- Failure to complete an internship in the assigned timeframe results in delayed graduation.
- The student must attend all components of their internship, as required and/or scheduled by the external site preceptor.
- The student will be provided information regarding the internship during their final semester.
- All classroom students are required to return to the HIM Program following the completion of their internship to present to the HIM faculty and peers about their experience.
- All online students are required to submit material as indicated by the internship course instructor, which includes a portfolio and recorded presentation describing their experience.
- All students are required to complete the 4 weekly modules as assigned in Blackboard.
- Online students who are already working in the profession work with the internship course instructor to identify an opportunity to complete a project(s) within their current organization in a department differing from their primary employment assignment; when this is not possible, the course instructor will assist the student in finding an internship site.
- KUMC must have an affiliation agreement (legal contract) in place for assigned internship sites.
- Internship sites are determined based on availability of contracted internship sites.
- Due to unforeseen circumstances, there may be a cancellation of the management internship site. Should this occur, the internship course instructor will inform the student within 24 hours of this notification and will begin the search process for another site for the student within one week.
- Students must be in good standing with all department policies prior to beginning their internship.
- The grade for the management internship is based on the following items:
 - Completion of the management internship

- Completion and submission of all components of the course as indicated per the course materials.
