

CARE STUDY

UNMASKING THE FINANCIAL BURDEN OF ALZHEIMER'S CAREGIVERS

Contribute to Caregiver Well-being: Share Your Story with the **CARE Study**

The CARE Study seeks to examine the experiences of dementia caregivers, exploring how their new role affects their daily lives and overall health. By gaining insights from caregivers, we aim to enhance our understanding of caregiving dynamics and find ways to improve caregivers' quality of life.

Who Can Participate?

- People 18 years of age or older
- Individuals who serve as a caregiver to a person with dementia and people who have become caregivers within the last 15-24 months
- Both the person with dementia and the caregiver must reside in the same household

CARE Study Details

- A virtual interview for recent caregivers
- Online surveys for caregivers
- Compensation available for participation
