

KUMC IPA (Ingenuity Pathway Analysis) USER AGREEMENT

This software/service is provided by the K-INBRE KUMC Bioinformatics Core and the Biostatistics and Informatics Shared Resource, University of Kansas Cancer Center (KUCC).

The funding sources for K-INBRE and KUCC should be included in the publication of any manuscript that presented results from the use of this service.

- National Institute of Health grant awards P30 CA168524 and P20 GM103418

To use IPA, you agree to be subject to and abide by this IPA User Agreement. Willful violation of this agreement will be treated as misconduct and subject to appropriate disciplinary action.

General Use Rules for IPA:

- This is a concurrent license. Only one user can be logged in at a time.
- Reserve time on IPA in advance using *Meeting Room Manager* (<http://mrm.kumc.edu/mrm7/>).
- Log off once you are done using IPA.
 - **Note:** No other user would be able to log into the system unless the current users logs out, thus we request every user to immediately log out as soon as they are done with using the system or if their reserved time is complete.
- Every user could reserve the IPA for a maximum of 3 hours blocks. Users can only reserve a max of 5 hours a day (min of three hours between concurrent sessions) and 10 hours a week.
- In case of cancellation, log on to meeting room and cancel your reservation as soon as possible, that way it will be open for other users to make a reservation.
- Follow established procedures when you're using IPA.
- Do not use IPA as the primary location to store data and results; if the license is discontinued in the future you will lose all uploaded data and generated results. Be sure to save the original data and analysis results on your local computer.
- Users who don't log off after the use will be notified the first two times for their violation. Following a third violation in a year, the user privileges will be revoked.
